

MAINE COUNCIL OF TROUT UNLIMITED

Conserving, protecting and restoring Maine's coldwater fisheries and their watersheds.

The Maine Council of Trout Unlimited

Our mission is to conserve, protect and restore Maine's coldwater fisheries and their watersheds. We do this with five Maine chapters and about 1500 member-volunteers, through on-the-ground restoration projects, advocacy for the waters we love, and education. Maine is home to the nation's last Atlantic salmon, the last native landlocked salmon and to more than 97% of the nation's native and wild brook trout ponds.

From the removal of dams on the Kennebec and Penobscot River's to surveys of remote beaver ponds for native brook trout that deserve protection, Maine TU volunteers are working for our waters and fish. To keep our programs flourishing and our waters healthy we need your support. 100% of your funds will go towards the projects you choose.

With a donation of \$200.00 or more you'll get a print by noted artist and past Maine Council of Trout Unlimited Chairman Dan Daly. Dan has donated the reproduction rights of an edition of 300 of his watercolor painting entitled, "Fall, The East Outlet" to the Maine Council of Trout Unlimited. Prints are 16 1/4" x 11" [image] with a 2 1/2" border, giclee print on Arches Paper.

I / We wish to donate \$ _____ to these Maine Council Projects:

- Maine TU Trout Camp to build the conservationists of tomorrow.
- Maine Brook Trout Surveys (to hire interns).
- Dam removal and other projects that reconnect and restore our watersheds.

(Please make checks payable to the Maine Council of Trout Unlimited)
